# WELCOME!

Welcome to the Adventure West Council University of Scouting Class of 2025!

We appreciate the investment you have already made and hope you will continue to strengthen your impact on youth through your own skill development. Your continued investment and engagement have never been more important as we help our units re-emerge and strengthen after the pandemic years. While the challenges are real, the opportunity and need to help each unit thrive is even greater.

We all continue to find new (and revisit old) ways for effective engagement with units while continuing our own commissioner development. Building relationships within and across Scouting is never more important. Our focus continues to be on our Scouting units, first and foremost, as we work to drive strong Scout and leader retention and to support ongoing recruitment to promote unit growth.

We all understand our unit service results will be enhanced as we continue to develop broader relationships in order to leverage our mentoring and coaching skills. This event is your chance to help improve your capabilities and, by extension, those of the units you serve. We are committed to help your contribution to unit service.

For those of you who will be participating for the first time, please consult with other unit commissioners, assistant district commissioner, or district commissioner to choose the offerings that will best help you. We believe you will be able to immediately put the new skills and knowledge acquired to serve your unit(s).

For those who return from prior participation, thank you! Your ongoing sharing and support are as important as your continued investment in your skills.

Looking forward to connecting in November!

James Hunt  
Dean, University of Scouting  
Adventure West Council #62

# THE DEGREE PROGRAM

The Adventure West Council's University of Scouting Degree Program is designed to provide you with the tools and knowledge that can be gained through supplemental training to help reinforce your Scouting knowledge and experience. Participation in the Degree Program is voluntary and adherence to the degree requirements is totally the responsibility of the participant.

The College's Degree Program provides a structured process in which participants can advance and be rewarded with degrees for each level of achievement. They may also gain a stronger sense of self-worth and a better understanding of their increasing value to the Scouting community.

The atmosphere is one of fun and fellowship, but there's also an attitude of respect for the importance of the event. Remember, every youth deserves a trained Leader. Students are encouraged to return each year, not only to earn higher degrees, but also to share their experiences with fellow students. The atmosphere of camaraderie and school spirit invigorates the students, inspiring them to return to their units and share their enthusiasm with Scouts and other adult leaders. The college's degree program is designed to provide an incentive for continued training and as a method to recognize Scouters who participate in that training.

We also offer advanced studies and continuing education course offerings in various topics of interest.
